

ATS Online

ATS Online is a new generation Internet-based test management solution designed to assist ECDL/ICDL Licensees in operating and administering ECDL/ICDL test activities of Candidates at Approved Centres. ATS Online from Litmus Learning Ltd is an integrated system that hosts performance-based ECDL/ICDL assessments and official testing consisting of multiple-choice questions and real-environment MS Office in application exercises. Fully featured with administrative functionalities, ATS Online supports official testing of ECDL/ICDL Core.

Quick Glance:

ATS Online offers the ECDL/ICDL Licensee the perfect solutions to manage the workflow of ECDL/ICDL testing activities, including candidate registrations, electronic logbooks/skills card generation, scheduling of test sessions, and producing customised reports.

New Features:

- Centralised Database Management System
- Supports both English & Arabic
- Different levels of user access
- Dashboard display of quick information
- Detailed reports, including those needed for audits and candidate feedback

Other Features include:

- Software is intuitive and user friendly
- Seamless integration with the BCS
- Real-life test environment
- Instantaneous marking
- Automatic update/upgrade
- Increased test randomization
- Server or software installation unnecessary (Apart from support files)

Benefits:

- Lower Costs – Automated Testing Software reduces the time spent on processes, as the ATS Administrator helps manage registrations and results.
- Time Management - Less time spent on administrative tasks and manual marking, and more time spent on training and supporting candidates.
- Improved Motivation - Interactive technologies are more engaging and realistic for candidates, offering confidence and familiar testing environments.

Support:

- Microsoft Windows 2000, Windows XP and Windows Vista
- Microsoft Office 2003, XP, Office 2007
