

ATS for ECDL/ITQ. Syllabus 5 in the UK from November '09.

The Automated Testing Software (ATS) for ECDL/ITQ is a unique assessment tool to measure the competency of a candidate based on the European Computer Driving Licence (ECDL) / International Computer Driving Licence (ICDL) manual question and test base (MQTB). Litmus Learning LTD ATS conforms to both the European and International Computer Driving License Association syllabus and standards. The ECDL/ICDL is an international qualification, which enables people to demonstrate their competence in computer skills.

What are the types of ECDL certifications endorsed by ATS?

ATS fully endorses the following:

- ECDL Core (Syllabus version 4.5/5.0) –
BCS Level 1 ITQ Award in IT User Skills Award (ECDL Essentials) & Flexiqua
BCS Level 2 ITQ Certificate in IT User Skills (ECDL Extra) & Flexiqua
ECDL
- ECDL Advanced (Syllabus version 1.0/1.5)
BCS Level 3 ITQ Award in IT User Skills Flexiqua
BCS Level 3 ITQ Certificate in IT User Skills (ECDL Advanced)

Accessibility:

ATS Software is accessible with Supernova Screen Reader.

Facts and Features:

- ECDL Core (Syllabus version 4.5/5.0)
- ATS assesses a candidate's proficiency of using a PC application by testing them within the actual software. For example, word processing is tested in MS Word only.
- No local installation required (other than support files), which reduces time spent on the initial setup.
- Instant marking and immediate test results are comforting to candidates, and dramatically decrease the amount of time spent on manually marking papers.
- The software records and stores the candidate's work allowing post examination checking and authentication.
- ATS software is available for both LAN and Internet users.
- The software allows Tests to be taken in both English and Arabic.

Benefits:

- Lower Costs – Automated Testing Software reduces the time spent on processes, as the ATS Administrator helps manage registrations and results.
- Time Management - Less time spent on administrative tasks and manual marking, and more time spent on training and supporting candidates.
- Improved Motivation - Interactive technologies are more engaging and realistic for candidates, offering confidence and familiar testing environments.

Support:

- Microsoft Windows 2000, Windows XP & Windows Vista
- Microsoft Office 2003, XP & Office 2007
